WHY CHOOSE LANDA'S PE

The PE is the beefiest unit of Landa's belt-drive, cold water pressure washer line offering nine models with cleaning power of up to 3000 PSI.

QUALITY: Only the highest quality components are used on the PE, including the Landa tri-plex high-pressure pump with 7-year warranty, industrial-duty Baldor motor, durable steel frame with welded seams, and stainless steel point-and-shoot wand for cleaning effectiveness. In addition to being certified to the rigid UL-1776 safety standards, the PE has a 24-inch hose guard for burst protection and tri-lingual operating instructions for owner liability assurance. Also, the PE is assembled in a factory certified to the internationally recognized ISO-9001 quality manufacturing standards.

CONVENIENCE: There are a number of features that make the PE especially popular with users who seek to reduce their cleaning time. For instance, there are Chrome-plated handles on both front and back for easy vehicle loading. The two leak-free, tubed pneumatic tires make for easy maneuvering in any terrain and there are two shock-absorbing spring-loaded rubber feet to keep the PE from "walking" while in operation.
