

Truck & Trailer Wash

TRUCK WASH 2000

DESCRIPTION: Concentrated liquid alkaline truck and trailer wash detergent.

ADVANTAGES:

Designed for use through hot or cold water high pressure equipment and automatic drive-through truck wash.

Removes exhaust deposits, road film, and bug residue from vehicle surface in one easy application without brushing.

Ideal for cleaning all fleet transportation vehicles and trailers.

Economical to use.

DIRECTIONS:

Pressure Washer: Dilute 1 part TRUCK WASH 2000 to 40-60 parts water.

Automatic Drive-Through Truck Wash: Dilute 1 part TRUCK WASH 2000 to 30-40 parts water.

Dilutions may vary based on water conditions and type of equipment used.

CAUTION:

Do not allow product to dry on glass.
