

Detergent With Booster

Formula 509

DESCRIPTION: High foaming liquid detergent concentrate. Packs the cleaning power usually found only in a powder in the convenience of a liquid to provide a unique high pressure detergent that removes stubborn road soils.

ADVANTAGES:

Added booster helps to remove oily film and road tars that are normally difficult to wash off cars and trucks.

Gently wets, penetrates, emulsifies, and loosens road film, grease, heavy soil without harming vehicle surface.

Controlled suds, rinses freely, completely. Leaves no film residue.

Can be used as a booster to enhance the cleaning power of any liquid or powder detergent.

Highly concentrated, biodegradable, economical to use.

DIRECTIONS:

Dilute 1 part detergent to 90 parts water (yellow Hydrominder Tip) for use with soft water.

For hard water conditions, dilute 1 part detergent to 64 parts water (orange Hydrominder Tip).

Dilutions may vary depending on water conditions and type of equipment used.

SPECIFICATIONS:

Physical form	Liquid
Color	Brown
Scent	Butyl
Specific Gravity	1.01
Density	8.44 lbs. per gallon
Foam test	Initial — 95 mm
pH 2%	11.5

SHIPPING WEIGHT IN POUNDS:

55 Gallon Plastic Drum	451.9 pounds
30 Gallon Plastic Drum	284.7 pounds
15 Gallon Plastic Drum	140.6 pounds
5 Gallon Plastic Pail	40.5 pounds
